Notes: The numbers following author, company, or subject entries in this index are the abstract numbers with the year and hyphen (**92-**) omitted.

For reader convenience in retrieval, letter codes are included with abstract numbers where applicable:

b = book
e = erratum
f = foreign-language text
p = patent
r = literature review

For example, **1234b** in this index means that abstract number 92-1234b is a review of a book. Similarly, **0123f** indicates that the original source for abstract 92-0123f appears in a language other than English and thus may need translating.
